**CHANGES TO ABSTRACT**

Please replace the Abstract with the following new Abstract:

This invention relates to compounds which are generally IP receptor antagonists and which are represented by Formula (I):

wherein G<sup>1</sup> is selected from the group consisting of **a**, **b**<sup>1</sup> and **b**<sup>2</sup>.

and A and G<sup>2</sup> are as defined in the specification; or pharmaceutically acceptable salts or solvates thereof. The invention further relates to pharmaceutical compositions containing such compounds, methods for their use as therapeutic agents, and methods of preparation thereof.
